IT Field Service Technician

CEO, FM On-Demand
123 Address St
Anytown, ST 12345

Dear FM On-Demand,

I am writing to express my strong interest in the IT Field Service Technician position at FM On-Demand, as advertised on Indeed. As a highly motivated and adaptable IT professional, I believe my diverse skill sets, such as communication, teamwork, problem-solving, networking, and hardware maintenance, position me as an ideal candidate for this role.

My communication skills are at their peak in the industry, for I am an easy go-to talker for getting the conversation going somewhere or creating an easy flow of ideas. Teamwork is my strong point with communication, for example, the successful completion of a web design project for a client. We worked painstakingly hard back-to-back between each class. Finding solutions to problems is easy with a calm yet focused mind when problems arise at work. Networking expertise is in terms of building professional relationships and configuring IT networks. Those are skills I developed during my time at the college. With information about other networking trends within the industry. Hardware maintenance is my strongest suit. I built and maintained a couple of computers for different uses throughout the start of college. Increasing the absorption of knowledge surrounding related technologies

Thank you for considering my application. I welcome the chance to discuss how my background and experience align with your IT needs in more detail. Please feel free to reach out to me at (825) 733-0921 or via email at Alexander.Pham@lethbridgecollege.ca.

Sincerely,

Alexander Pham
